Don't Flush

Do you want to keep your household pipes flowing freely? Do want to avoid costly plugs in your pipes and city sewer lines? Want to help the environment?

Don't Flush Trouble. Don't Flush Trash. Don't Flush GREASE! Don't Flush Wipes. Even if your disposable wipes say flushable...DON'T flush them!!

The city is having problems with grease building up and blocking pipes and the wet well. When this happens we are forced to hire a pump truck to come and clean out the wet well and pipes. This is caused by flushing grease. Don't rely on your garbage disposal. It will not stop grease from going into the sewer. The photo is the beginning of a grease blockage. This will eventually build up across the pipe causing blocks, back flows and deterioration of plumbing.
